<i>Plant name</i>	<i>Optimal Light</i>	<i>Water</i>	<i>Temperature</i>	<i>Other common names or special notes</i>	<i>Botanical Name</i>
Aglaonema Maria, Silver Queen, Emerald Bay, Silver Bay	Low Light	Moderately moist soil	62-80°F	The darker the leaves the less light they need.	
African Mask	Indirect Light	Keep soil moist	62-80°F	African Mask	Alocasia Amazonai Polly
Agave Blue/Green	Bright Light or Full Sun	Moderately dry soil	62-80°F		many
Algerian Ivy Green	Bright Light	Moderately moist soil, not	45-60°F		Hedera Canariensis
Algerian Ivy Variegated	Bright Light	Moderately moist soil, not	45-60°F		Hedera Canariensis
Aloe Vera	Bright Light	Moderately Dry soil	65-75°F	Medicine Plant (Sap is used for healing burns)	Aloe Barbadensis
Aluminum	Medium Light	Moderately moist soil	62-80°F		Pilea Cadierei
Amate	Bright Light	Moderately Dry soil	70-75°F	Umbrella Tree Schefflera	Brassaia Actinophylla
Aralia	Medium Light	Moderately moist soil	62-80°F		
Aralia False	Medium Light	Moderately moist soil	62-80°F	pot plant	Dizygotheca Elegantissima
Arboricola	Bright Light	Moderately Dry Soil	70-75°F	Hawaiian Schefflera (smaller leaves than Amate)	Brassaia Arboricola
Ardisia	Medium Light	Moderately moist soil	55-70°F	Coral Berry	Ardisia Crenata
Areca palm	Bright Diffused Light	Moderately moist soil	70-75°F		Chrysalidocarpus Lutescens
Aspergus Meyerii Fern	Medium to Low Light	Moderately moist soil	55-80°F	(Most ferns prefer humid conditions)	
Baby Tears (Pilea)	medium Light	Moderately moist soil	62-80°F		Helxine Sioleirolii
Bamboo Palm	Medium to Low Light	Moderately moist soil	60-75°F		
Boston Fern	Medium to Low Light	Moderately moist soil	55-80°F	(Most ferns prefer humid conditions)

<i>Plant name</i>	<i>Optimal Light</i>	<i>Water</i>	<i>Temperature</i>	<i>Other common names or special notes</i>	<i>Botanical Name</i>
Bridal Veil	Medium Light	Moderately dry soil	55-70°F	(more profuse white flowers in higher light)	Gibasis Genuculata
Burle Marx	Medium Light	Moderately moist soil	70-75°F		
Cactus	Bright Light or Full Sun	Moderately dry soil	62-80°F	when going from greenhouse to full sun acclimate the plant.	
Calathea	Medium Light	Moderately moist soil	70-75°F		
China Doll	Bright Diffused Light	Keep soil moist	65-70°F		Radermachera Sinica
Coffee (Arabian)	Medium Light	Moderately moist soil	62-80°F		Coffee Arabica
Cordyline Assorted	Bright Indirect Light	Moderately moist soil	65-75°F		
Creeping Charlie	Medium Light	Moderately moist soil	62-80°F		Pilea Nummularifolia
Croton Banana	Bright Light	Moderately moist soil	70-75°F		Codiaeum Variegatum
Croton Gold Dust	Bright Light	Moderately moist soil	70-75°F		Codiaeum Variegatum
Croton Ictone	Bright Light	Moderately moist soil	70-75°F		Codiaeum Variegatum
Croton Mammy	Bright Light	Moderately moist soil	70-75°F	Dread locks	Codiaeum Variegatum
Croton Petra	Bright Light	Moderately moist soil	70-75°F		Codiaeum Variegatum
Crown of Thorns	Bright Light , but shade from summer sun	Moderately moist soil, let dry between waterings	55-80°F		Euphorbia Milii
Dieffenbachia Camille	Medium Light	Moderately Dry Soil	62-80°F	Dumb Cane	Dieffenbachia
Dieffenbachia Perfection (Compacta)	Medium Light	Moderately Dry Soil	62-80°F	Dumb Cane	Dieffenbachia
Dracaena Godsfiana	Medium Light	Moderately moist soil	62-80°F		
Dracaena Janet Craig	Medium Light	Moderately moist soil	62-80°F		
Dracaena Janet Craig Compacta	Medium Light	Moderately moist soil	62-80°F		
Dracaena Marganita	Medium Light	Moderately moist soil	62-80°F		

**Plant Care Quick Reference
Provided The Plant Ranch**

<i>Plant name</i>	<i>Optimal Light</i>	<i>Water</i>	<i>Temperature</i>	<i>Other common names or special notes</i>	<i>Botanical Name</i>
Dracaena Marganita Bi-Color	Medium Light	Moderately moist soil	62-80°F		
Dracaena Massangeana Tip	Medium Light	Keep moist but not soggy	60-75°F	Corn Plant	Dracaena Fragrans massangeana
Dracaena Warneckii Lemon Lime	Medium Light	Keep evenly moist	60-75°F		
Ficus Burgundy Bush	Medium Light	Moderately moist, let dry between waterings	60-80°F	Rubber Plant	
Ficus Midnight Braid	Bright to medium Light	Keep moist but not soggy	60-75°F	Weeping Fig	
Ficus Robusta Bush	Bright Indirect Light	Moderately moist soil	70-75°F	Rubber Plant	Ficus Elastica Robusta
Ficus Wintergreen Bush	Medium Light	Moderately moist soil	62-80°F		Ficus Wintergreen
Fishtail Palm	Medium to Low Light	Keep moist but not soggy	60-75°F		Caryota Mitis / Burmese Fishtail Palm
Friendship (Pilea)	Medium Light	Moderately moist soil	62-80°F		Pilea Spruceana
Goldfish	Bright Indirect Light	Moderately moist soil	65-75°F		Nematanthus
Hedera Ivy Green	Bright Light	Moderately moist soil	60-70°F	English Ivy	
Hedera ivy Variegated	Bright Light	Moderately moist soil	60-70°F	English Ivy	
Hoya Carnosa	Bright Light	Moderately moist soil	70-75°F	Tri-color Wax Plant	Tri-color Wax Plant
Hoya Hindu Rope	Bright Light	Moderately moist soil	70-75°F		
Jade	Bright Light	Moderately Dry Soil	70-75°F		Crassula Argentea
Kimberly Queen Fern	Medium to Low Light	Keep moist but not soggy	60-75°F		
Lemon Tree	Full Sun	Moderately moist soil	don't let freeze	can bring into the house in the winter and cut back on water, put by bright windows	

**Plant Care Quick Reference
Provided The Plant Ranch**

<i>Plant name</i>	<i>Optimal Light</i>	<i>Water</i>	<i>Temperature</i>	<i>Other common names or special notes</i>	<i>Botanical Name</i>
Lime Tree	Full Sun	Moderately moist soil	don't let freeze	can bring into the house in the winter and cut back on water, put by bright windows	
Lipstick Vine	Bright Light	Moderately moist soil	70-75°F	Lipstick Lobbianthus, and Variegated (Generally hardy to 50°F)	Aeschynanthus Radicans
Macho Fern	Medium to Low Light	Keep moist but not soggy	60-75°F		
Majesty Multi Palm	Medium Light	Moderately moist soil	62-80°F		Ravenea
Ming Aralia					
Mini Fittonia	Indirect Light	Moderately moist soil	70-75°F		Minature silver - nerved Fittonia
Moon Valley (Pilea)	Medium Light	Moderately moist soil	62-80°F		
Neanthea Bella Palm	Low Light	Moderately moist soil	62-80°F	Parlour Palm	Chamaedorea Elegans
Nepthytis Regina Red/Neon/Pink allus	Medium Light	Moderately moist soil	62-80°F	arrow head plant	Syngonium
Nepthytis White Butterfly	Medium Light	Moderately moist soil	62-80°F	arrow head plant	Syngonium
Norfolk Island Pines	Indirect Light	Moderately moist soil	65-70°F		Araucaria Heterophylla (A.Excels)
Orange Tree	Full Sun	Moderately moist soil	don't let freeze	can bring into the house in the winter and cut back on water, put by bright windows	
Peperomia Green	Medium Light	Moderately dry soil	62-80°F		
Peperomia Ripple	Medium Light	Moderately dry soil	62-80°F		
Peperomia Variegated	Medium Light	Moderately Dry Soil	62-80°F		
Philodendron Brazil	Medium Light	Moderately moist soil	62-80°F		
Philodendron Cordatum	Medium Light	Moderately moist soil	62-80°F		

**Plant Care Quick Reference
Provided The Plant Ranch**

<i>Plant name</i>	<i>Optimal Light</i>	<i>Water</i>	<i>Temperature</i>	<i>Other common names or special notes</i>	<i>Botanical Name</i>
Philodendron Mican	Medium Light	Moderately moist soil	62-80°F		
Pink Splash (Hypoestes or Polka Dot plant)	Medium Light	Moderately moist soil	62-80°F	Polka-Dot Plant	Hypoestes Sanguinolenta
Pleomele Anita	Indirect Light	Moderately moist soil	70-75°F	All Green	Pleomele
Pleomele Reflexa	Indirect Light	Moderately moist soil	70-75°F	All Green	Pleomele
Pleomele Song of India	Indirect Light	Moderately moist soil	70-75°F	Light green middle and cream outer stripes on leaves	Pleomele
Pleomele Song of Jamaica	Indirect Light	Moderately moist soil	70-75°F	Darker green leaves with light variegation	Pleomele
Plumosa Fern	Indirect Light	Moderately moist soil	60-70°F	Air fern	
Podocarpus	Diffused to Low Light	Moderately Moist soil	50-70°F	Buddist Pine / Maki (southern Yew)	
Ponytail Palm	Bright Light	Moderately moist soil	60-70°F		Beaucarnea Recurvata
Pothos Gold	Low Light	Moderately moist soil	62-80°F		Epipremnum
Pothos Jade	Low Light	Moderately moist soil	62-80°F		Epipremnum
Pothos Marble Queen	Low Light	Moderately moist soil	62-80°F		Epipremnum
Purple Passion	Bright Light	Moderately moist soil, not	70-75°F	If you water too much they melt	Gynura Sarmantosa
Pygmy Date Palm	Bright Diffused Light	Moderately moist soil	70-75°F	Phoenix Roebelenii	
Rabbit Foot Fern	Medium to Low Light	Keep moist but not soggy	60-75°F		
Red Maranta	Medium Light	Moderately moist soil	62-80°F	The prayer plant/ Herringbone Plant	Maranta leuconeura
Red Splash (Hypoestes or Polka Dot plant)	Medium Light	Moderately moist soil	62-80°F	Polka-Dot Plant	Hypoestes Sanguinolenta
Rhapis Palm	Medium Light	Keep moist but not soggy	60-75°F	Little Lady Palm	Rhapis Excelsa
Sago palm	Indirect Light	Maintain Soil on the Dry Side	65-70°F		Cycas Revoluta
Sanseveria Laurentii	Low Light	Moderately Dry Soil	70-75°F	Snake plant, Mother-in-law tongue	Sanseveria Trifasciata

**Plant Care Quick Reference
Provided The Plant Ranch**

<i>Plant name</i>	<i>Optimal Light</i>	<i>Water</i>	<i>Temperature</i>	<i>Other common names or special notes</i>	<i>Botanical Name</i>
Sanseveria Zeylanica	Low Light	Moderately Dry Soil	70-75°F	Snake plant, Mother-in-law tongue	Sanseveria Trifasciata
Spathiphyllum	Medium Light	Very Moist Soil	55-80°F	Peace Lily	Spathiphyllum
Spider	Medium Light	Moderately moist soil	55-70°F	Airplane plant	Chlorophytum Comosum Variegatum
Springerii fern	Medium to Low Light	Keep moist but not soggy	60-75°F		
Strawberry Begonia	Bright Light	Moderately Dry Soil	60-65°F		Saxifraga Stolonifera
Succulents	Bright Light	Moderately Dry soil	65-75°F	many varieties	
Traingle Palm	Medium Light	Keep moist but not soggy	60-75°F		
Waffle Plant	Low Light	Moderately moist soil	70-75°F		Hemigraphis Alternata (H. Colorata)
Wandering Jew	Medium Light	Moderately moist soil	62-80°F	Varieties, cream, tri-color, zebrina Pendula, and more	Tradescantia
White Splash (Hypoestes or Polka Dot)	Medium Light	Moderately moist soil	62-80°F	Polka-Dot Plant	Hypoestes Sanguinolenta
Yucca Cane 4/3/2	High Light	Moderately Dry soil	55-70°F	Cane Plant	Yucca Elephantipes
